

JUN 25 1965

North Clarendon, Vermont
June 23, 1965

The Honorable George D. Aiken
United States Senate
Washington, D.C.

Box 13

Sir:
Aside from avoiding nuclear
disaster one of this country's most
serious problems is reversing the
trend that is threatening to
turn the country into one vast
dump. I urge your support
of legislation aimed at control-
ling and eventually abolishing
billboards, and strict control
of junkyards. Our generation
may be the last one to have
a chance to pass on to posterity
some of the beautiful God-
given countryside we have
been privileged to enjoy.

Very truly yours,
