Senator Albert Gore,  
Congress  
Washington, D.C.  
Senator Gore,

I am convinced that somebody has to take care of the sick and the aged, though, from what I can see I dread to think what's going to happen to me. But I think Medicare, ~~is the~~ as it is projected today, is the wrong answer.

I am a retired teacher and, as you well know I never was paid a decent salary. I always conducted various projects in order to even seem respectable. I object to Social Security being tampered with. AND my pride will be no consideration when I have to ask the government for Medical attention. Pray just keep Social Security out of it. And don't compel people to pay any more taxes. Let it be voluntary.
