Dear Senator Gore:

After reading some literature on the Eldercare bill (H. R. 3727) known as "The Eldercare Act of 1965", I am convinced that it is a better plan than the Medicare plan. Not only is it better in benefits and cost, but it helps only those who need help now. I believe that we are headed in the wrong direction when everything for everybody has to be done by the national government. I do not believe the administration received a "mandate" last November for passage of Medicare, when 77% of the people did not understand the provisions of Medicare.

I feel there are millions of people who share my thoughts and hope you will consider them before you act.

Sincerely,
