The Honorable Albert Gore
Senate Office Building
Washington, D. C.

Dear Senator Gore:

One of the great fears in many would be failure to receive immediate treatment in case of medical emergencies. We can easily foresee that under Medicare, doctors will be swamped with minor complaints and hospitals so filled with people demanding "free complete physicals".

This is just another step towards a socialistic economy. Where will the "free" stop? Please at least vote for eldercare in lieu of medicare.

Sincerely,

[REDACTED]
